Special knotter designed for disposable hygiene industry

KNOTTER 093E

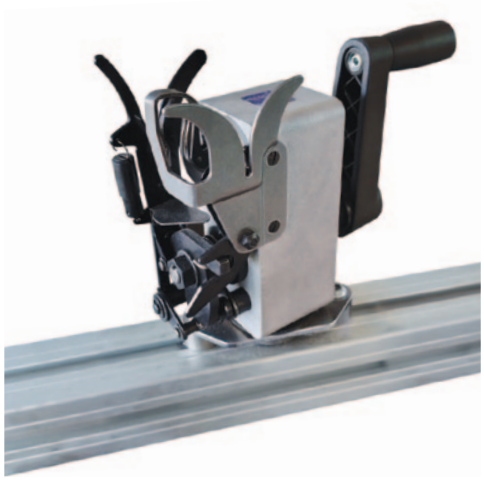

Based on the well-known Loop Knotter type 093, Mesdan developed a **NEW model type 093E**, specifically designed for joining **spandex** for the disposable hygiene industry.
The 093E is a hand-operated knotter distinguished by its reliability, knotting consistency and easy operation.
Its main application is the **tail-to-top transfer** on the creels used in the production of **diapers**.
It can be easily moved from one position to another, directly clamped to the creel structure or fixed on pre-set brackets.
